Understanding Harmony and Living in Harmony at all Levels

Harmony in the Human Being ✓

Harmony in the Family ✓

Harmony in the Society ✓

Harmony in Nature/Existence – Existence

Process of Understanding

Self Exploration

Whatever is stated is a **Proposal** (Do not assume it to be true/ false)

Verify it on your own right

What is my
role (value) in
Existence?

Harmony in Existence अस्तित्व में व्यवस्था

अस्तित्व = अस्ति + त्व
↓ ↓
है / होना व्यवस्था

Existence = Exist + Essence
Whatever ↓ ↓
Exists is/to be harmony (mutual fulfillment)

अस्तित्व = सह-अस्तित्व = शून्य में संपृक्त इकाइयां
Existence = Co- Existence = Units submerged in Space

Harmony in Existence अस्तित्व में व्यवस्था

Units are identified by their **boundary, limitedness**

They appear to be **separate** from each other, in **isolation** from each other;

So, when we focus on units only, we see the isolation, the separateness, dividedness.

Now, **are they divided, isolated or are they related?**

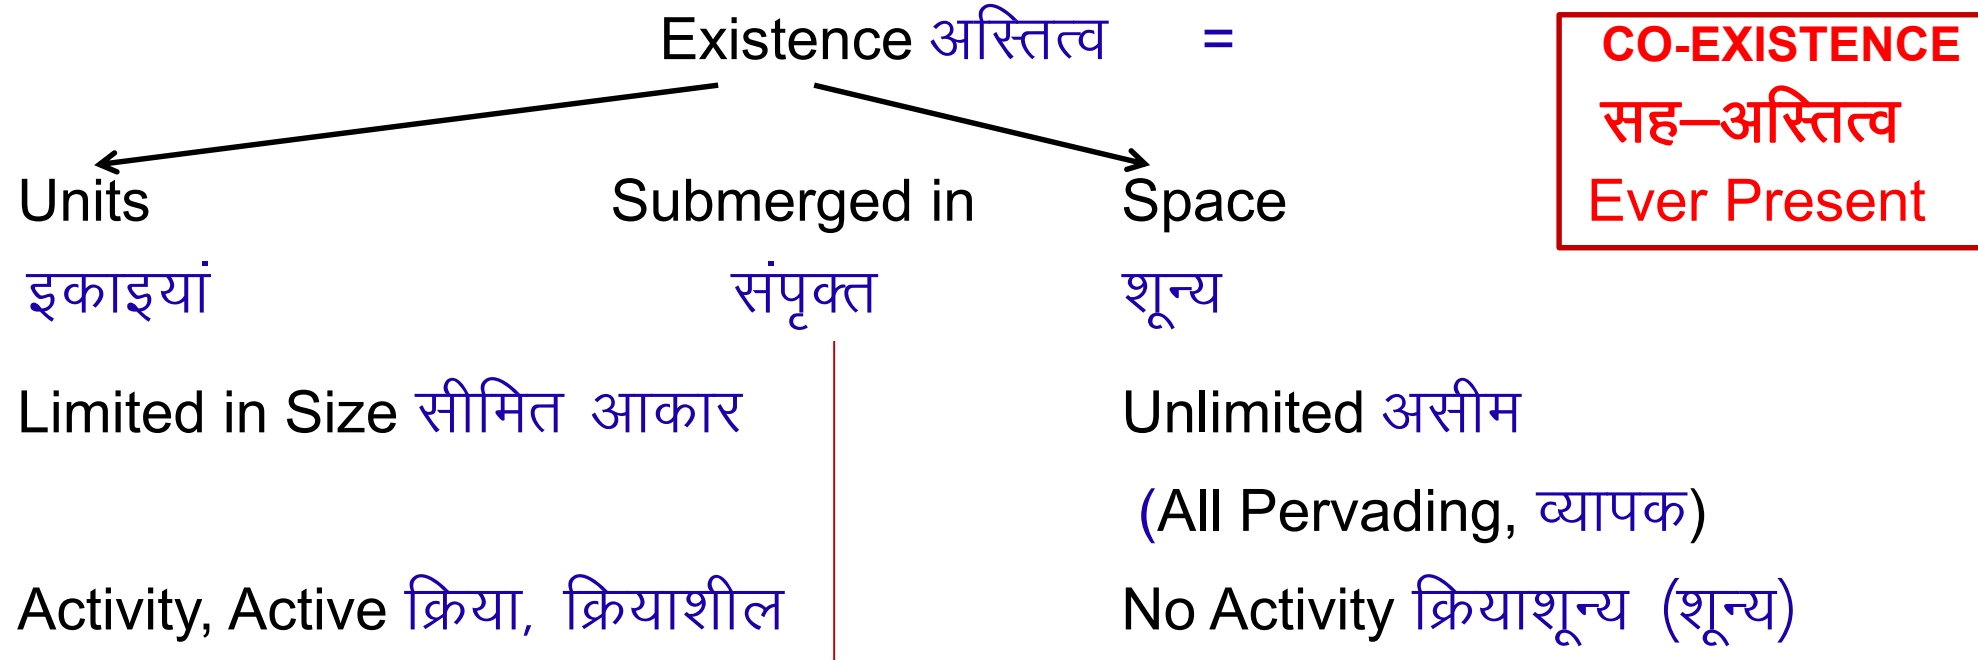

We have seen that they are related, then what is the basis of relationship?

To understand this, we have to understand the **reality which remains undivided in the these divided units-** and that is **Space**,

So, we need to understand the **Space** also.

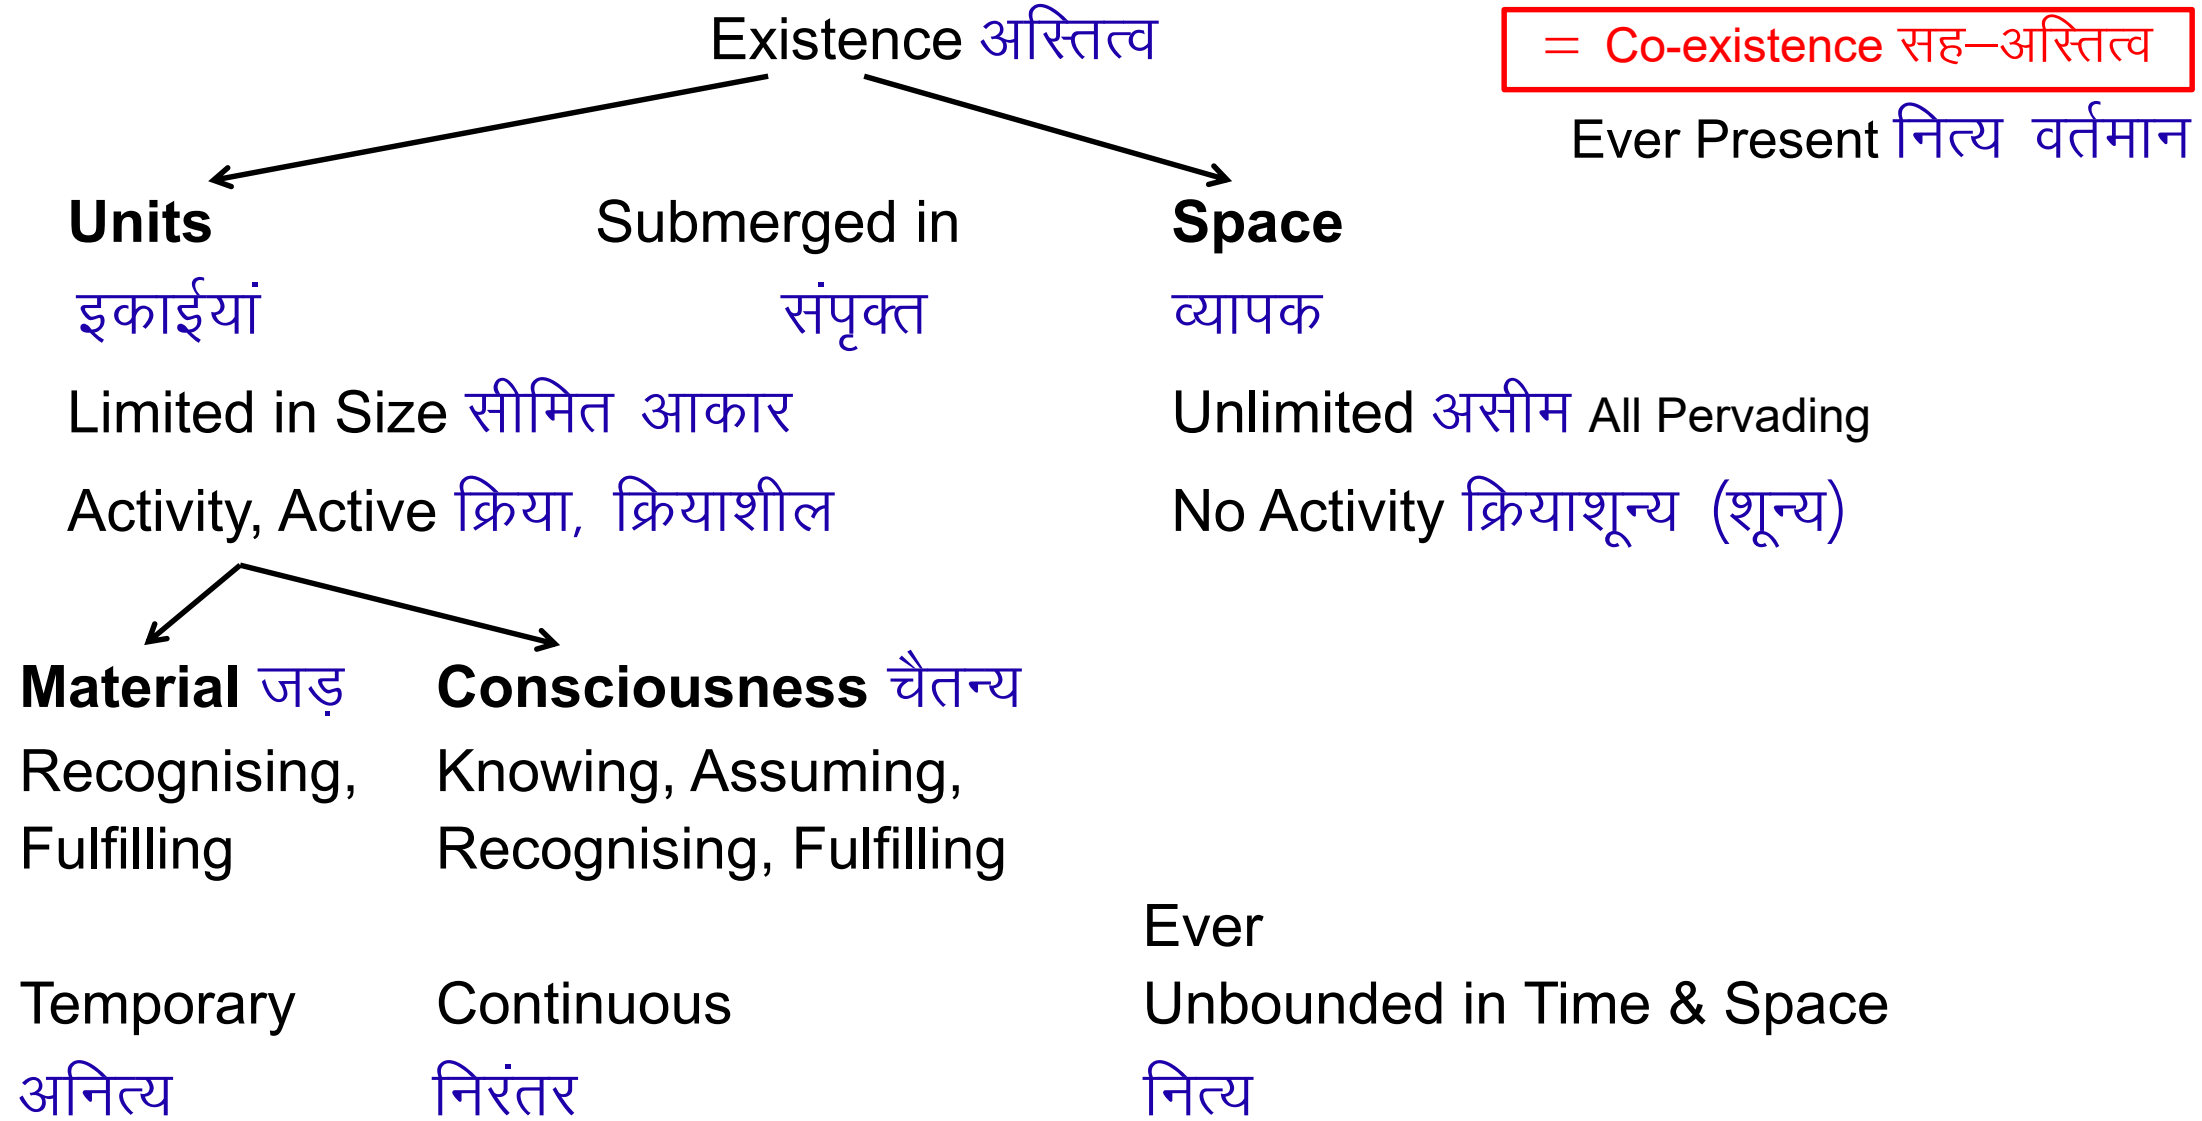

अस्तित्व = सह-अस्तित्व = शून्य में संपृक्त इकाइयां
Existence = Co- Existence = Units submerged in Space

Harmony in Existence अस्तित्व में व्यवस्था

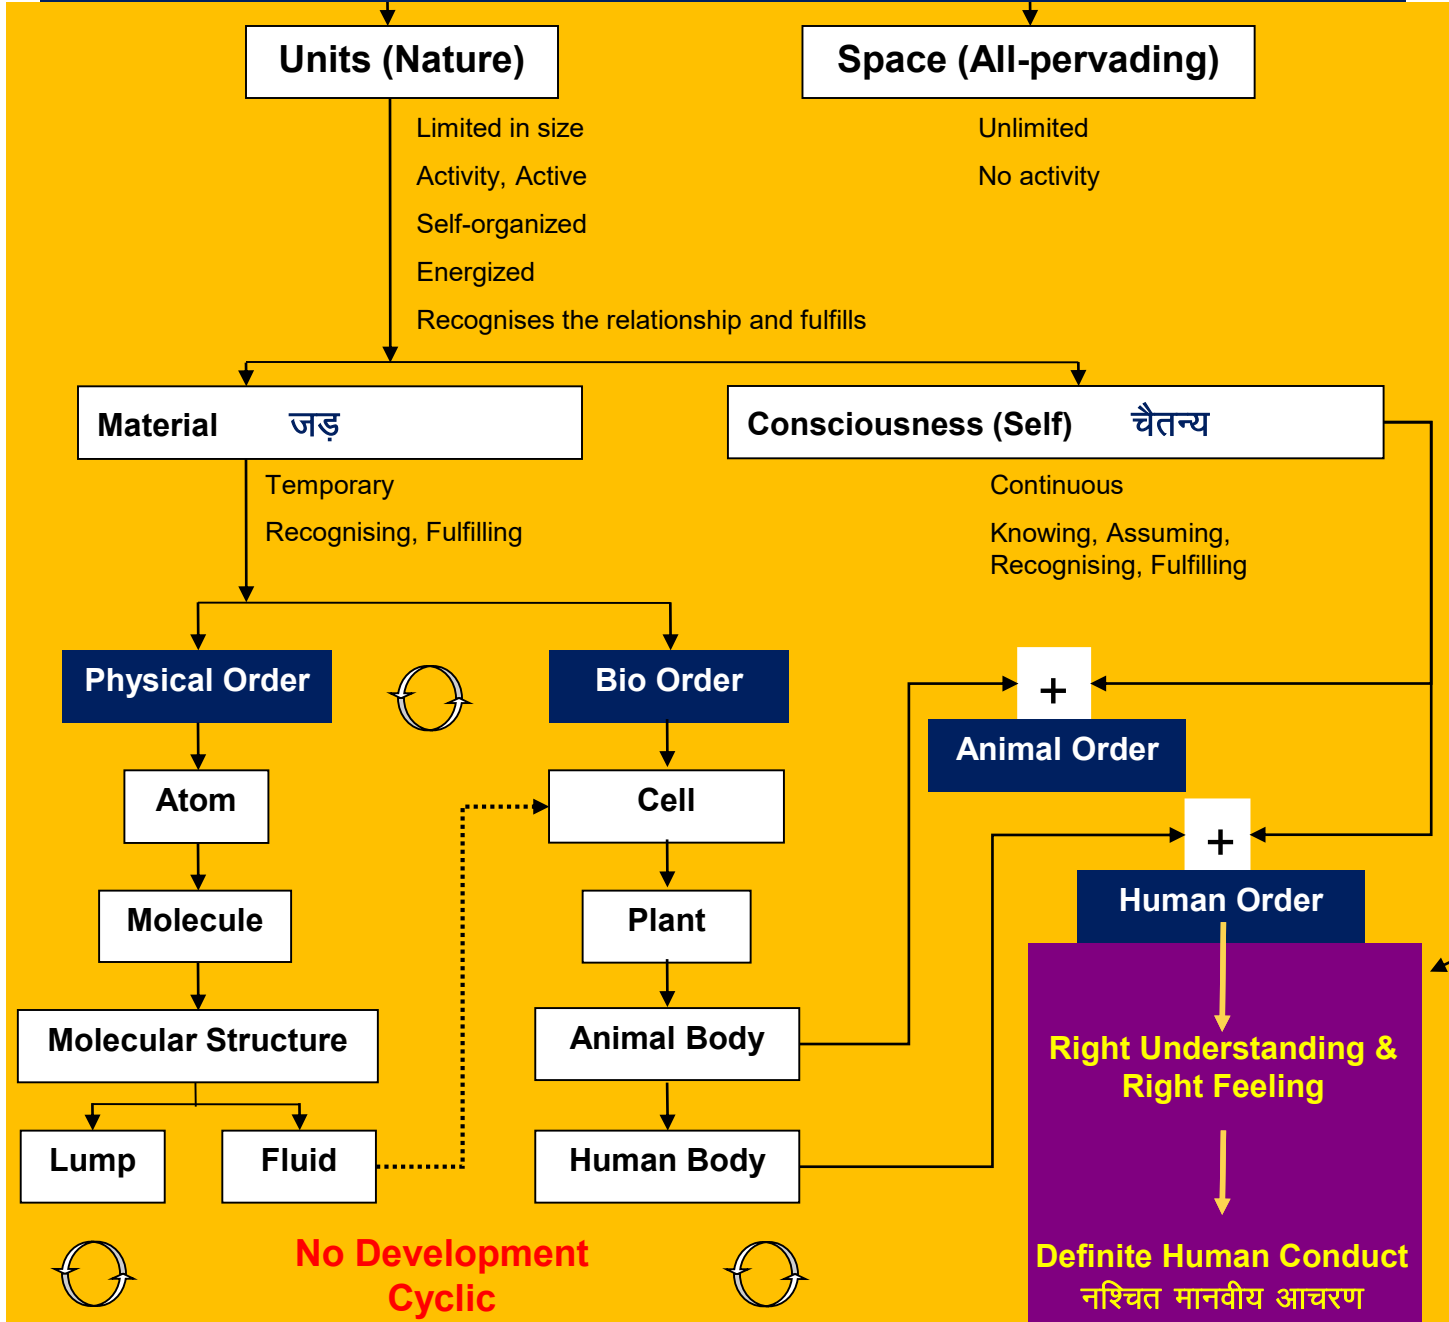

1. Energised in Space (शून्य के सह-अस्तित्व में ऊर्जित है)
2. Self organised in Space (शून्य के सह-अस्तित्व में नियंत्रित है, स्वयं में व्यवस्था है)
3. Recognises it's relationship,
Fulfills its relationship with every other Unit in Space
(शून्य के सह-अस्तित्व में परस्परता को पहचानती है, निर्वाह करती है
बड़ी व्यवस्था में भागीदार है, समग्र व्यवस्था में भागीदार है)

3.1.2. Knowledge of Existence

Existence
(= Co-existence = Units submerged in Space)

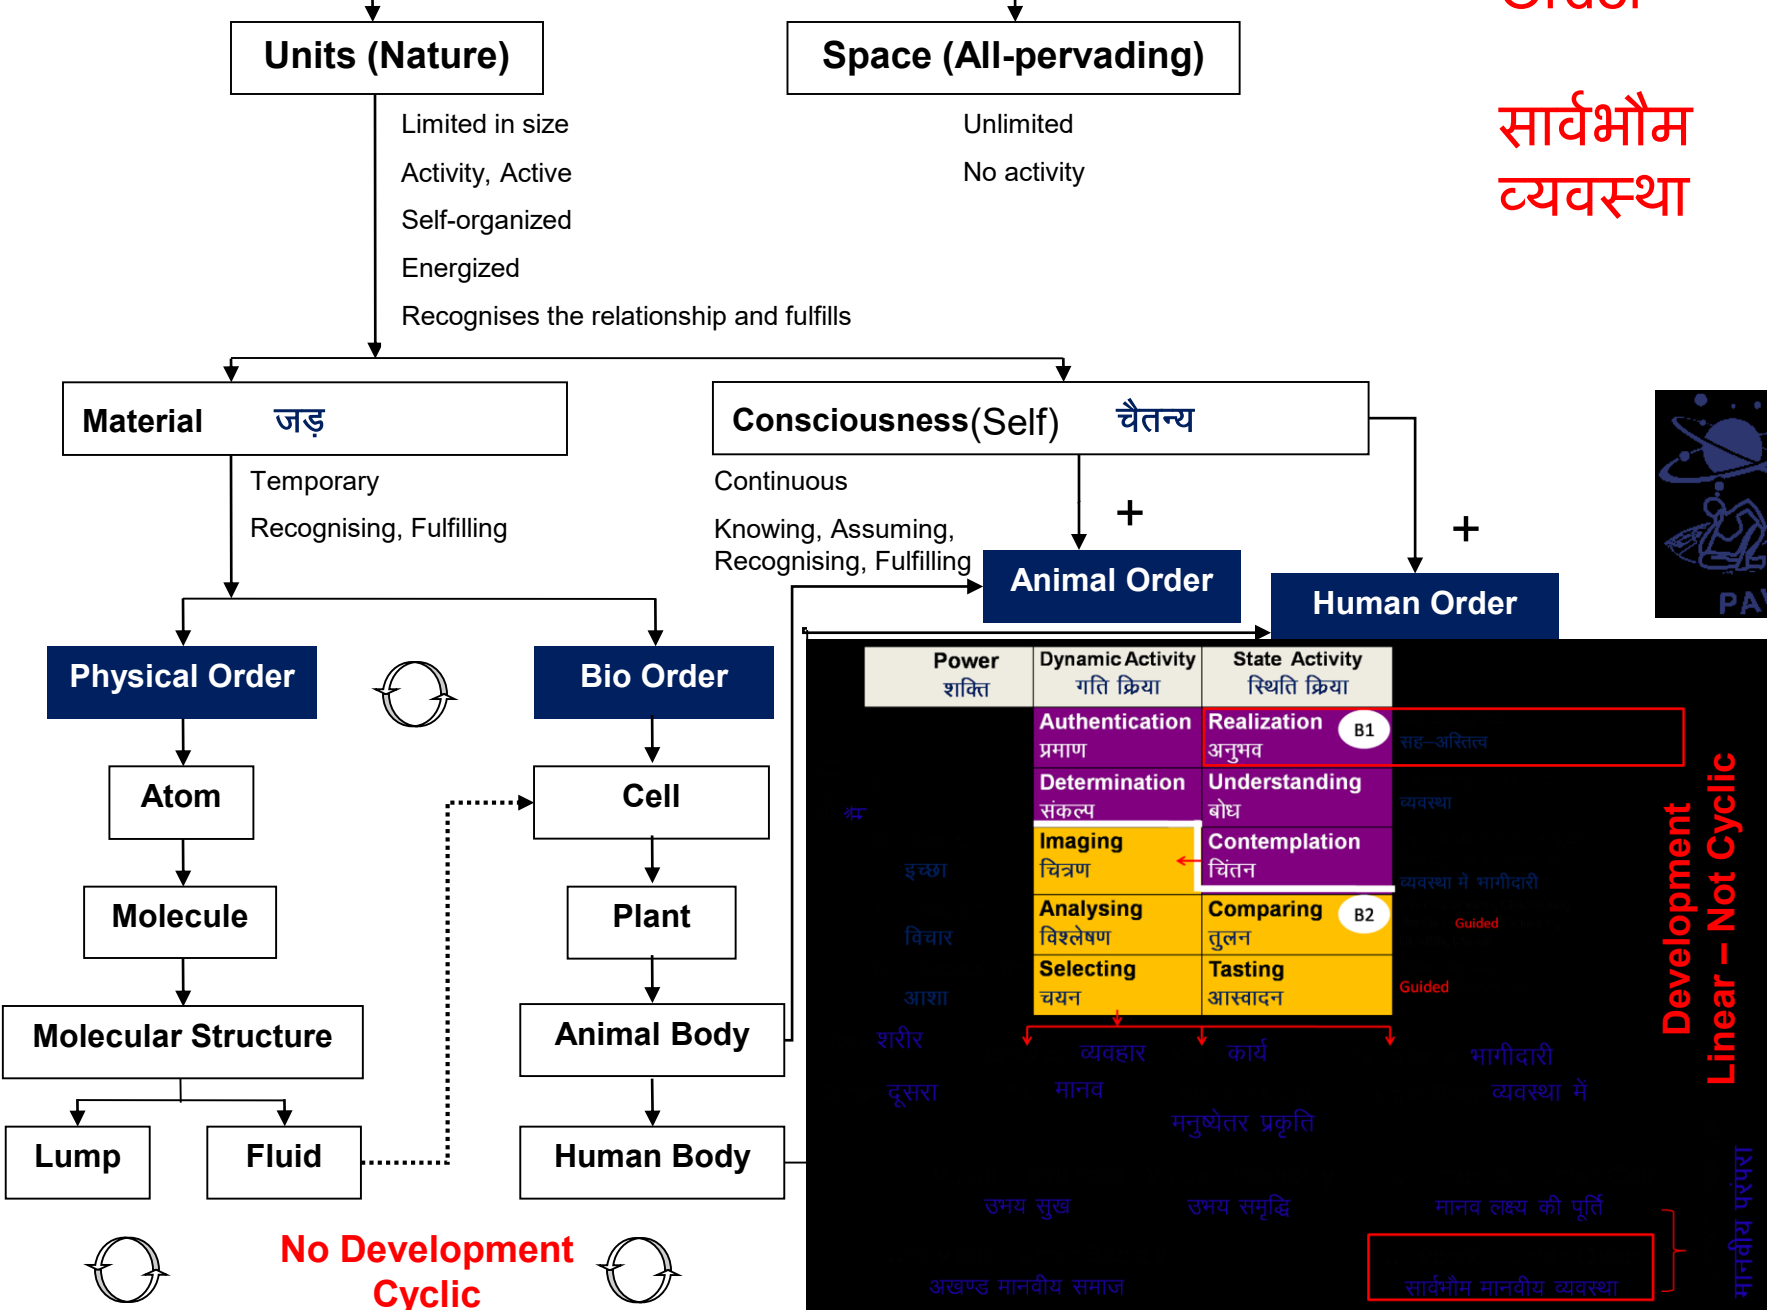

This is already in harmony

Only this part is remaining
And it has to happen in the
Self by the Self

Existence
(= Co-existence = Units submerged in Space)

Universal
Order

सार्वभौम
व्यवस्था

No Development
Cyclic

Sum Up

Existence is in the form of co-existence. It is ever present
(Existence = Co- Existence = Units submerged in Space)

Every unit in existence is related with every other unit in existence in a mutually fulfilling manner

Synergy is intrinsic to existence, harmony is inherent in existence – we do not have to create it, we do not have to construct it

The role of Human Being is to realize this co-existence, this harmony, this order in existence.

For this, all that human beings need to do is:

1. To understand the inherent harmony, the co-existence in existence
2. To live accordingly – to live with the feeling of harmony or co-existence
(and there is every provision in existence for living in co-existence)

Questions

- Is Nature/Existence self organized or is it a chaos?
- Is struggle inherent in Nature/Existence or is there co-existence?
- This existence is so big... unlimited and human being is so small. So how can we understand the whole existence?
- How can we say that unit is self-organized by virtue of co-existence?
